- Won **Academic topper** award in 2018 and 2019.
- Scored **800+** medals on skillrack
- Won prizes in mini project development, project expos, hackathons

Zenbasket
Role : Software developer , Lead
Duration : Jan 2021 - Sep 2023

- During my tenure at Zenbasket, I progressed from an intern to a senior developer, contributing significantly to the platform's evolution over two and a half years. As a junior developer, I spearheaded essential projects encompassing product management, options management, cart management, customer management, discount management, and order management. This foundational experience honed my skills in bug-solving, Redux state management, and dynamic animations, enhancing the platform's functionality and user experience.

- Transitioning into a senior developer role, I focused on implementing TypeScript and higher-order components (HOCS) to ensure the platform's scalability and adaptability. Collaborating closely with my team, I tackled real-time challenges and achieved significant milestones, fostering a culture of innovation and excellence. My time at Zenbasket not only deepened my understanding of ecommerce projects but also instilled in me the importance of effective collaboration and problem-solving within a dynamic team environment.

- Overall, my journey with Zenbasket empowered me to emerge as a proficient developer, equipped with the skills and mindset necessary to drive impactful contributions to any project. I am grateful for the opportunities and experiences that have shaped my professional growth, and I am excited to apply my expertise and dedication to future endeavors.

ZenyoWorkforce
Role : Software developer , Lead
Duration : Sep 2023 - Jan 2023

- During my four-month engagement with the Zenyoworkforce HR Management project, I played an integral role in the development and implementation of various modules aimed at enhancing functionality and user experience. Collaborating closely with cross-functional teams, we successfully delivered key features, including a dynamic dashboard, streamlined employee information management systems, efficient timesheet and expense management tools, as well as comprehensive onboarding and offboarding processes.

- I also contributed to the integration of push notifications across platforms, enhancing user engagement and interaction. As part of my responsibilities, I will oversee the deployment of the application on both the Play Store and the App Store, ensuring seamless accessibility for users across platforms. Additionally, I will lead rigorous testing efforts, meticulously crafting test cases to validate the application's performance, functionality, and reliability, thereby ensuring a high-quality end product.

ZenyoPayroll
Role : Software developer , Lead
Duration : Feb 2023 - Present 2023

- Since January 2024, I've been an integral part of the Zenyopayroll HR Management project, driving the successful implementation of crucial modules for efficient HR operations. Collaborating closely with cross-functional teams, I've overseen the integration of essential features such as a dynamic dashboard, comprehensive employee information management, efficient payslip handling, IT declarations management, and a robust system for loans management.

- My role extends beyond development, I also lead the deployment of the application on both the Play Store and App Store, while effectively allocating resources for specific tasks to optimize team productivity.

- Throughout the project lifecycle, my focus remains on ensuring top-notch quality and reliability. I meticulously oversee unit testing and documentation for each module, ensuring a seamless user experience and compliance with industry standards. This experience has not only honed my project management skills but has also deepened my understanding of the intricate dynamics of modern digital solutions, equipping me for future challenges in the tech industry.

PROS

⭐ Versatile Technical Skills

Proficient in a wide range of technologies including React Native, React, Redux, JavaScript (JS), TypeScript (TS), Next.js, Node.js, MongoDB, PostgreSQL, Adobe Photoshop, Illustrator, Premiere Pro, and After Effects.

⭐ Strong Project Leadership

Led three successful projects within the past two years, demonstrating effective project management, technical guidance, and team collaboration skills.
